

## NOTICE

No- BIET/TP/14/270

Date- 01.08.2014

**Attn.- ALL FINAL YEAR STUDENTS ( B.Tech,MCA,MBA)**

As you know for cracking any Job Interview it is essential to have three Skills, those are -Human Skills, Conceptual Skills (Aptitude) and Technical Skills. It is needless to say Most Students fail to crack the Interview for Shortage of Aptitude and Attitude Skills. So keeping that in mind The T& P Cell will organize a Week long Training Program . This training program is unique because all the Expert Subject Specific Trainers will come from Different Places of the Country and they not only charge high amount but also busy all through this Placement Period in Engineering Colleges.

So before we start this year 2014-2015 Campus Placements we hope all of our students should be trained enough to face the Interview.

We will also strictly monitor that those who will take the training they will be allowed for the campus Drives.

As Trainers are always busy in different Colleges they have given time from 22<sup>nd</sup> August to 29<sup>th</sup> 2014.

This will be a Student Contribution Program and the Expenses incurred will be shared by participating Students which is very nominal Comparative to same training they will undergo outside the College campus.

Register you name as soon as Possible (LAST DATE -5<sup>th</sup> AUG 2014, 4.30 P.M.)

in Training and Placement Cell. FIRST CUM FIRST SERVE TO 100 Students..... ONLY 100 SEATS FOR TRAINING. Those who will not participate in the training will be understood by record that they do not need any job assistance from College end and they are already placed or have their own arrangements.

Placement Drive Season will commence from Dec 2014. Get ready and do not miss the opportunity which will be a turning point of your career.

For any Doubt please get in touch with T& P Cell.
